Ref. No. BIM /E&L/2020-21/72

Date: 11.07.2020

To  
The Member Secretary,  
State Pollution Control Board, Odisha,  
A/118, Nilakantha Nagar, Unit-VIII,  
Bhubaneswar – 751012

**Sub: Environmental Statement for 2019-20 in respect of Barsua-Taldih-Kalta Iron Mines.**

Sir,

Please find enclosed herewith the Environmental Statement in Form – V for the year ending on 31<sup>st</sup> March 2020 in respect of Barsua-Taldih-Kalta Iron Mines of M/s SAIL for your kind perusal.

Thanking You,

Yours faithfully,  
For SAIL/Barsua Iron Mines

A handwritten signature in black ink.

P K Rath

Chief General Manager, BIM & KIM

Encl: As Above

Copy to:

1. The Additional Director(s),  
MOEF, Govt. of India,  
Eastern Regional Office,  
A/9, Chandrasekharpur,  
Bhubaneswar, Odisha – 751023
2. The Regional Officer,  
State Pollution Control Board,  
Sector – 5, Rourkela - 769002

# **ENVIRONMENTAL STATEMENT**

## **YEAR: 2019-2020**

**Steel Authority of India Limited  
Raw Materials Division  
Barsua-Taldih-Kalta Iron Mines  
Sundargarh (Dist.)  
Odisha – 770042**

**(2) Raw Material Consumption**

<i>Name of raw materials</i>	<i>Name of products</i>	<i>Raw material consumption per unit of product output</i>	
		<i>During the previous financial year (2018-19)</i>	<i>During the Current financial (2019-20)</i>
(1) Diesel (Ltrs)		1686539	3385242
(2) Lubricant			
a) Lubricant oil (Ltrs)		63833	53306
b) Grease(Kg)		11102	11434
(3) Explosive			
a) Slurry Explosive(Kg)	Iron Ore	242944.5	437161
b) Detonators (Nos)		1717	1943
c) Detonating Fuse(Mtrs)		83165	100800
(4) Power Consumed (Kwh)		12526998	15894714
(5) Tyres (Nos)		23	545

The ROM production during 2018-19 is 3.935 million tonnes and during 2019-20 is 4.748 million tonnes.

**PART - C**  
**Pollution discharged to environment / unit of output**  
[Parameter as specified in the consent issued]

<i>Pollutants</i>	<i>Quality of pollutants Discharged (mass/day)</i>	<i>Concentrations of pollutants in discharges (mass/volume)</i>	<i>Percentage of variation from prescribed standards with reason.</i>
a) Water			
b) Air	The Environmental monitoring report is attached in Annexure - I		

**PART -D**  
**Hazardous Wastes**

[As specified under Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016]

<b>Hazardous Wastes</b>	<b>Total Quantity(kg)</b>	
	<b>During the previous Financial Year (2018-9)</b>	<b>During the current Financial Year (2019-20)</b>
a) From Process		
• Used Oil Filters	649 Nos.	409 Nos.
• Waste containing oil	788 kg	818.5 kg
• Used Oil	7980 Liters	13020 Liters
• Empty Barrels/Containers	170 Nos.	276 Nos.
• Used Batteries	67 Nos.	79 Nos.

## **FORM – V**

### **Environmental Statement for the financial year ending 31<sup>st</sup> March 2020**

#### **PART – A**

- (i) **Name and address of the owner/occupier of the industry operation or process.** : Barsua-Taldih-Kalta Iron Mines  
P.O- Tensa,  
Dist. : Sundargarh  
Pin- 770042, Odisha  
**Agent** : Shri P. K. Rath,  
Chief General Manager (Mines)  
**Nominated Owner** : Shri Vivek Gupta  
Director (RM&L), SAIL
- (ii) **Industry category Primary - (STC code)** : Open Cast Iron Mine  
**Secondary - (SIC Code)**
- (iii) **Production capacity** : 8.05 MTPA
- (iv) **Year of establishment** : 1960
- (v) **Date of the last environmental statement submitted** : 20.09.2019

#### **PART – B**

#### **Water and Raw Material Consumption**

<b>(1) Water consumption</b>	<b>m<sup>3</sup>/day</b>
Process	495.51
Cooling	472.15 (dust suppression)
Domestic	4362.16

<i>Name of Products</i>	<i>Process water consumption per unit of product output</i>	
	<i>During the previous financial year (2018-19) in m<sup>3</sup>/MT</i>	<i>During the Current financial (2019-20) in m<sup>3</sup>/MT</i>
(1) Washed Iron Ore	0.48	0.41

b) From Pollution Control facility <ul style="list-style-type: none"> <li>• Waste oil from oil &amp; grease separation pit</li> <li>• Sludge from oil &amp; grease separation pit</li> </ul>	Nil (Included in process above)
--	---------------------------------

**PART – E**  
**Solid Wastes**

Wastes	Total Quantity(Tonnes)	
	During the previous Financial Year (2018-19)	During the current Financial Year (2019-20)
(a) From Process		
(1) Overburden / rejects	436840 Ton	1046525 Ton
(2) Tailings	89911 Ton	48980 Ton
(b) From Pollution Control facilities	NIL	NIL
(c) (1) Quantity recycled or re-utilized within the unit	-	-
(2) Sold	-	-
(3) Disposed	526751 Ton	1095505 Ton

**PART – F**

**Please Specify the characterisation (in terms of compositions and quantum) of Hazardous as well as Solid Wastes and indicate disposal practice adopted for both these category of wastes.**

**Hazardous Waste Handling and Disposal:**

1	Used Oil Filters	Storage in an impervious pit under covered shed followed by final disposal in Authorised Hazardous Waste incinerator / SLF / CHWTSDF, Jajpur.
2.	Waste containing oil	Storage in an impervious pit / containers under covered shed followed by final disposal in Authorised Hazardous Waste incinerator / SLF / CHWTSDF, Jajpur.
3.	Used Oil	Storage in impervious pits / containers under covered shed followed by sale to authorized recycler through auction.
4.	Used Batteries	Stored in an earmarked place on impervious floor under covered shed followed by sale to authorized recycler through auction.
5.	Empty Barrels/Containers	Storage in an impervious pit under covered shed followed by disposal through authorized vendors.

### Solid Waste Handling and Disposal:

These contain high proportions of overburden/mineral rejects in the form of gravel/ boulder and tailings. In the overburden, the Fe content is less than 45% however in mineral rejects the same is between 45-57%. The bulk chemical composition tailing is around 57.67% Fe, 6.29% Al<sub>2</sub>O<sub>3</sub>, 3.52% SiO<sub>2</sub> and 6.93% LOI.

#### Disposal practice adopted for solid wastes:

- i) Tailing generated out of washing and jigging operations are allowed to settle in tailing pond.
- ii) The Overburden, Mineral reject are being stacked at earmarked sites as per the approved mining plan within the existing broken areas.

## **PART – G**

### **Impact of pollution abatement measures taken on conservation of natural resources and on the cost of production.**

1. Various mineral conservation techniques are adopted by mine including use of low-grade ore by beneficiation, blending of mineral rejects with high grade ore as per steel plant quality requirements.
2. For conservation of natural resources, high efficiency HEMM are used with schedule maintenance which keeps the vehicular emission under control and also reduce the fuel consumption.
3. A System for Zero Discharge has been provided at Barsua Iron Mine for recovery and recycling of decanted water from the tailing pond which resulted in reduction of pollution load in the nearby water bodies and reduce the fresh water consumption.
4. Dry fog system has been installed at crushing plant and transfer points which improves the working environment in the plant.
5. Check dam, retaining wall, toe wall, garland drain and settling pit has been constructed for control of surface run-off from the mines which also result in augmentation of ground water.

## **PART – H**

### **Additional measures/ investment proposal for environmental protection, abatement of pollution, prevention of pollution.**

The following additional investment proposals for environmental protection, abatement of pollution, prevention of pollution are under consideration for the mine:

1. Construction of concrete road at the entry and exit point of mines.
2. Installation of additional one numbers of CAAQMS near transport road.
3. Construction of Check dam, garland drain, toe walls/ retention wall and settling pit.
4. De-silting of existing check dams.
5. Plantation of 20000 saplings around the mines.
6. Surface runoff and slope stability study for the mines.
7. Construction of rain water harvesting system for recharge of ground water.
8. Stabilization of waste dump with coir matting.
9. Installation of IP Cameras in the major dust prone areas.

**PART – I**  
**Any other particulars for improving the quality of environment.**

1. Creating awareness amongst employees and villagers regarding protection of environment and forest by conducting various awareness programmes.
2. Celebration of Environment day, Environment week, Environment month, water conservation month, etc to create awareness among employees and villagers.
3. Display of Boards at various locations carrying environmental slogans and environmental parameters.
4. Celebration for Mass awareness by slogans, working models & Cultural Program by employees & school children in Mines Environment & Mineral Conservation week under the aegis of IBM.

**Date : 11.07.2020**
